September 2, 1926.

Miss Sally Peters,
Cragamoor,
Ulster County, N.Y.

Dear Miss Peters:

Thank you for your letter of August 27th. Of course, there is nothing in Toolan's testimony that amounts to anything. We have been in touch with several persons who were at the scene before any reporters arrived, and I think they got the straight story as to the card. There was none propped up against Dr. Hall's foot. The fingerprint sensation sprung by Simpson on Thursday last is being looked into very carefully. I am confident that it is nothing but another of his fakes. Our experts are now working on the matter.

I presume Mrs. Hall has written you that she was at Spring Lake yesterday seeing Mrs. Runyon and Mrs. Charles Carpenter. I talked with her on the phone last night and she said she had had a most restful drive. We are making a minute search of Mrs. Gibson's career and are turning up a host of interesting and damaging facts which we shall use at the proper time. What Simpson plans may be as to Henry ^{Stewart} ~~Carpenter~~ I do not know. I rather doubt if Simpson arrests him, but no one can tell the man's mind long in advance.

Sincerely,
